Average Wedding Prices (plus sales tax & security deposit if necessary)

This pricing sheet is to give you an idea of what things cost. Pricing a wedding involves many factors, but most importantly that it reflect your personal style and desires. This is why we do not offer “packages” like your other vendors do. It simply doesn’t make sense as each wedding is custom created especially for you, our couple! Most articles say to set aside 10% of your wedding budget for flowers...more if that’s what’s important to you!
